

Oxygen First Aid for Scuba Diving Injuries Provider Class

As a recreational diver, you can receive training to provide vital first aid that can make a difference to a scuba diver with decompression illness.

■ The DAN Oxygen Provider Course provides entry-level training in the recognition and management of possible dive-related injuries using emergency oxygen first aid.

Before the Class

- It's recommended you have certification in CPR and First Aid.
- You will need to purchase the student handbook that goes with the class.

The Class

- The four-hour class can be taught in conjunction with other courses such as CPR, First Aid, and/or AED to provide a well rounded emergency training experience.
